

TO STOP FRAUD™

Co-branded assets

This campaign allows partners to co-brand assets in the form of MP4 videos. Partners can place their logo on the last slide which includes the Take Five website address and logo.

The visual below indicates the area allocated for a partner logo to be placed.

Provide equal spacing so that the Take Five logo is balanced against the partner logo.

High quality MP4 footage has been provided for use within video editing software for partner logo placement.

**For advice on how to avoid fraud
please visit the Take Five website
